

WALL

Natural is beautiful, we all agree on that. But beauty comes from imperfection – farm smells, muddy boots, violent storms, buckled trees. A true environmentally harmonious future doesn't care for zealous words or good intentions, only conclusive actions.

Craft Wall

Craft Wall is a great option for building vertical structures and a nature-friendly choice. This wall has been created as an alternative to wood where humidity tolerance, durability and a long lifetime are required.

These walls will last you a lifetime, without fading and cracking, with minimal maintenance and virtually limitless options when it comes to textures and colors.

Key features

- long lifespan
- incredible weather & UV resistance
- waterproof
- corrosion safe
- vandal resistant
- superb noise insulation – B3, 3 1dB
- maintenance free
- easy to install
- environmentally friendly
- low lifetime costs
- all metal components are hot-dip galvanized

Profiles

- Tongue & Groove
- 138x28 mm
- 138x32 mm
- 138x38 mm

Length 3m or 3.6m.

Mechanical properties

UV-impairment
ASTMG154 ΔE=1.1

Sound isolation
EN 1793-2 B3

Resistance to chemicals

- white spirit **no damage**
- lighter fluid **no damage**
- bleach **no damage**
- hot baking oil **no damage**

Density **0.75g/cm³**

Flexural properties **EN408**
Flexural modulus **N/mm²**
-50°C 1843/ 22°C 795/ 60°C 452

Linear expansion **0.069mm/m/°C**

Flammability class **ISO 13501-1 E**

Water absorption **ISO 620.17%**

Toxicity **Non-toxic**
