THE FUTURE OF GREEN

Since 2009

Soiled plastic garbage is the human race's organic waste, a natural byproduct of our modern life.

We should use it wisely already today.

OUR UNIQUE PROCESS TURNS PLASTIC WASTE INTO A 100% RECYCLED AND 100% RECYCLABLE PRODUCT RANGE THAT IS MAINTENANCE FREE, ENVIRONMENTALLY FRIENDLY, HAS CHARACTERISTICS AND POSSIBILITIES LIKE NO OTHER.

Today we are the only company in the world that produces laminated recycled plastic profiles.

NEW DESIGN!

T&G board with a ventilation slot

The healthy environment and good air quality inside a horse stable is important.

Our innovative T&G boards provide better ventilation in your horse stable - fresh air can enter and stale air will exit.
